Mahogany Wood Chip

Description & Process:

Feed Stock: Clean unpainted, untreated dimensional lumber

Particle Size: Material is ground to 2" and screened at 3/8" for overs

Color: Product is colored using Amerimulch water-based brown colorant. Colorant is safe for humans and animals.

Texture: 2"-3/8" wood chips

Additional information:

Mahogany Wood Chip is Vision Recycling's 2"-3/8" Golden Blend wood chip in a rich brown color. Use Mahogany Wood Chip to add a solid and natural looking earth tone backdrop to landscapes. Use for pathways, sitting areas and landscapes. Mahogany Wood Chip helps conserve water, prevent soil compaction and overheating, and suppresses weeds. The wood chips are generally between 2" and 3/8" in size with occasional pieces reaching 3".

Vision Recycling's ground cover products are made from recycled, unpainted clean wood, yard trimmings & lumber. As this is a repurposed material we strive to have the best quality products on the market. Please note: Vision Recycling cannot guarantee 100% clean material. However, we continue to keep our standards high to provide the best quality material for your needs.
